Tips for Taking a Winning Photo

- If you've purchased a new camera or haven't used your old camera in a while, make sure that it is in working order and that you are familiar with its settings before you leave.
- To achieve the best lighting, position the sun behind you when setting up for a shot.
- Focus on one or two subjects instead of a crowd of people.
- Crop out unwanted clutter and wasted space by zooming in on your subject. The face is most important, so don't worry about fitting in the whole body.
- Pay attention to the background. Avoid moving cars, distracting patterns, or objects directly behind your subject's head.
- Break out of the ordinary. Sometimes positioning your subject off-center or shooting from an interesting angle produces a more dynamic photograph.
- Try to capture your Collette Vacations lanyard or Collette Wear in the photo.
- Have your camera ready at all times. You never know when the perfect shot will present itself!
- While scenery is beautiful, judging preference will go to those photos with people.
